

# EP uniTool NEWS

ISSUE 04 | JANUARY 2022

## Ready, set ...Going Public

**We need to ensure that those who need modular knowledge get easy access to it.**

**We would like to ensure that also customers have the needed access to make calculations and general insight and knowledge about the modular products.**

**Therefore we are happy to announce:**

### EP uniTool is now live for all – Internal & External

**With this external launching and public version (Version 1.10.1) we have completed new important and powerful features that makes the EP uniTool more user friendly.**

#### Customized catalogs with modular datasheets

All modular datasheets on belts and chains are now available in EP uniTool. Search or use the filtering options to find the needed datasheets.

Click to Collector and create a customized catalogue.

#### My projects & Dashboard

The calculation app is designed to make things as easy as possible. Recommendations/results can be saved for ongoing projects in a personal area (My projects) and be accessed when needed.

To create overview and re-use of projects and catalogs made, another new feature has seen the light; Dashbord function (upper right corner with My profile) that shows the latest 10 projects as well the latest catalogs created.

*From EP uniTool press release:*

"EP uniTool is yet another very important step in the digitalising of the conveyor business. As always, our aim is to bring our customers closer to us and to make working together with us easier for them."

**Michael Wilhelmer,**  
President Business Area Conveyor Belting, Ammega

*From EP uniTool press release:*

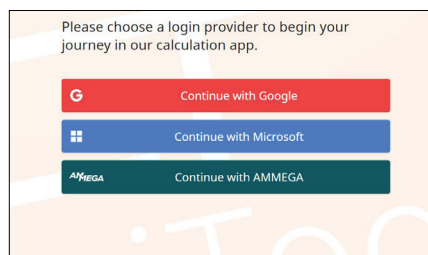

"EP uniTool is a major milestone in the journey of EASE-OF-DOING-BUSINESS with us. It is extremely important that the requisite accurate information on our products is digitally available, both for our colleagues in-house and for our partners and customers, and I'm very pleased to be able to announce the launch of this valuable new resource."

**Alex Ludvigsen,**  
Managing Director BU Modular, Ammeraal Beltech

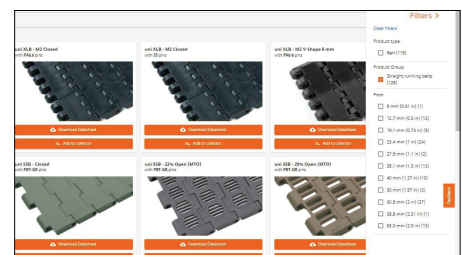

#### Read the press release online

An intensive external launch campaign will now start. Please help us in sharing this news.

#### Login for everybody

EP uniTool is now open for all to sign up and log in to the calculation app – where also datasheets can be found.

#### Customized catalog on demand

Find the datasheets (menu bar) and download what you need as separate datasheets or customized catalogs.
